

MIXES

Carefully balanced proportions

Description:

They are created according to original recipes, mostly based on our **proven, natural ingredients** that improve the taste, aroma and attractiveness of the final product. A **tailor-made individual recipe** can also be created for the customer (e.g. with functional ingredients such as protein products with added protein).

Main advantages:

- based on natural ingredients
- varied taste and aroma
- extensive possibilities to create new recipes
- special components make the product more attractive
- composition of blends based on original recipes
- option to create an individual recipe or use functional ingredients

Use:

Ideal for:

- additives for meat
- delicatessen goods
- pâtés
- additives for sausages
- instant products
- ready meals

Products offer:
